Our CIPP/E (Certified Information Privacy Professional Europe) Training course encompasses pan-European and national data protection laws, key data protection terminology and practical concepts concerning the protection of personal data and trans-border data flows.

As an Official IAPP Training Partner, JAW Consulting UK is uniquely positioned to deliver both theory and practical guidance of complying with the EU GDPR.

There is no better way to prepare for the EU GDPR or for a role as a Data Protection Officer (DPO) than by receiving CIPP/E (Certified Information Privacy Professional Europe) Training and obtaining a world-renowned, ANSI/ISO-accredited certification.

Since 2000, the CIPP/E (Certified Information Privacy Professional Europe) has been recognised as the world's leading credential in the business of data privacy.

When you earn the CIPP/E credential you are joining a highly respected group of knowledgeable, capable and dedicated data protection & privacy professionals.

Achieving a CIPP/E credential demonstrates comprehensive EU GDPR knowledge, perspective and understanding to ensure compliance and data protection success in Europe—and can take advantage of the career opportunity this sweeping legislation represents.

Key Benefits

- The CIPP is the global industry standard for professionals entering and working in the field of data protection & privacy.
- The CIPP/E is a highly respected amongst top employers hiring and promoting privacy professionals
- Achieving a CIPP/E credential demonstrates understanding of a principles-based framework and knowledge base in information privacy within the European context, including critical topics like the EU-U.S. Privacy Shield and EU GDPR (including Mandatory DPOs).
- Be recognised as part of a respected group of knowledgeable, capable and dedicated privacy and data protection practitioners.
- Elevate your leadership profile among colleagues and peers by holding the CIPP/E designation

What Will I Learn?

The CIPP/E training course was developed by the IAPP and delivers the comprehensive GDPR knowledge, perspective and understanding to ensure compliance and data protection success in Europe.

The CIPP/E Training course is broken into eleven key modules:

Module 1:

Data Protection Laws

Introduces key European data protection laws and regulatory bodies, describing the evolution toward a harmonised European legislative framework.

Module 2:

Personal Data

Defines and differentiates between types of data including personal, anonymous, pseudo-anonymous and special categories.

Module 3:

Controllers and Processors

Describes the roles and relationships of controllers and processors.

Module 4:

Processing Personal Data

Defines data processing and GDPR processing principles. Explains the application of the GDPR and outlines the legitimate bases for processing personal data.

Module 5:

Information Provision

Explains controller obligations for providing information about data processing activities to data subjects and supervisory authorities.

Module 6:

Data Subjects' Rights

Describes data subjects' rights, applications of rights and the obligations of the controller and processor.

Module 7:

Security or Processing

Discusses considerations and duties of controllers and processors for ensuring security of personal data and providing notification of data breaches.

Module 8:

Accountability

Investigates accountability requirements, data protection management systems, data protection impact assessments, privacy policies and the role of the data protection officer.

Module 9:

International Data Transfers

Outlines options and obligations for transferring data outside the European Economic Area, decisions adequacy and appropriateness of safeguards and derogations.

Module 10:

Supervisions and Enforcement

Describes the role, powers and procedures of supervisory authorities; the composition and tasks of the European Data Protection Board; the role of the European Data Protection Supervisor; and remedies, liabilities and penalties for non-compliance.

Module 11:

Compliance

Discusses the applications of European Data Protection (EU GDPR) law, legal bases and compliance requirements for processing personal data in practice for employers - including processing employee data, surveillance, direct marketing, internet technology and communications and outsourcing.

What Will I Achieve?

- Be confident with essential privacy concepts and principles as well as legal requirements for handling and transferring data
- Gain an enhanced understanding of jurisdictional laws, regulations and enforcement models, rules and standards
- Practical experience to apply concepts and achieve a 'best practice' privacy programme

- The skills to help your organisation have resilience with personal data management and data flow between different countries
- You will be eligible to sit the IAPP exam to attain CIPP/E qualification (booked via the IAPP website).
